

# PAIN MANAGEMENT SERVICES

## Amy Bakke, CRNA/NSPM

Amy is a certified registered anesthetist with a certification and fellowship training in advanced pain management

**CHI Oakes Hospital** is now offering new **Pain Management Services** to Oakes and the surrounding communities.

### IMPROVE FUNCTION.....

The goal of treating chronic pain is to improve function so you can get back to doing daily activities. It is important to understand that most chronic pain does not completely go away, but there are many nonpharmacological treatments that can help you manage it and live a full life. Our team wants to help you achieve that!

### Conditions We Treat (but not limited to):

- ❖ Chronic Back Pain
- ❖ Sciatica
- ❖ Herniated Disc
- ❖ Chronic Migraines/Headaches
- ❖ Arthritis
- ❖ Small to Major Joint Pains
- ❖ Carpal Tunnel Syndrome
- ❖ Diabetic Neuropathy
- ❖ Fibromyalgia
- ❖ Shingles

### Services We Provide (but not limited to):

- ❖ Education on pain pathology and treatment plans
- ❖ Collaboration with Primary Care Providers and other multimodal therapies
- ❖ Injections – Spine, joints, muscles, Botox for chronic migraines
- ❖ Nerve Block – Blocking pain from specific nerves
- ❖ Radiofrequency Ablation – A minimally invasive procedure that can see up to 18 months of pain relief!

Imagine better health.™
